

PARAPROFESSIONALS OR TEACHERS AIDES

The Fall Mountain Regional School District School Board recognizes that classroom and school building situations exist where the services of paraprofessionals or teacher aides are beneficial. With due regard to the Agreement between the Fall Mountain Professional Teachers Association and the Board, and the provisions of RSA 186:11 and related State Board of Education Regulations regarding certification, the Board authorizes the employment of paraprofessionals or teacher aides as recommended by the administration. Such paraprofessionals or teacher aides will assist in providing a well-organized, smoothly functioning school environment in which students can take full advantage of the instructional program and available resource materials.
