

HOME EDUCATION

The Fall Mountain Regional School District School Board recognizes its legal responsibility to ensure that all children of compulsory school age have the opportunity to receive an education that is adequate and equivalent to that which they are entitled under law.

The Fall Mountain Regional School District School Board authorizes the school district to follow the New Hampshire Revised Statutes annotated, Chapter 193-A, Home Education, established in 1990 and revised in 1993, in cooperating with parents who wish to have their children receive education that is an alternative to education in an accredited public or private school.

The Fall Mountain Regional School District School Board, in compliance with RSA 189:49, Optional Services, may grant access to district instructional materials, resources, and programs to home education families.

The Homeschooling Coordinator is charged with the responsibility of developing the necessary procedures to process home education requests, to oversee home education instructional programs, and to evaluate home education student progress.
